

I am opposed to the proposal to expand LPFM stations due to the fact that it may force K-LOVE stations off of the air. K-LOVE currently serves hundres of thousands of listeners with family friendly programming that is not available anywhere else. K-LOVE supports wholesome values and has a positive and encouraging impact on the listeners in the communities that it serves. I believe that the K-LOVE programming is in the best interest of the public at large and I would hate for any community to loose its access to this wonderful station. Please carefully consider this proposed decision. Thank you.
